

Program

The following timetable shows the most up to date version of the schedule for DrupalconSzegeed based on trackchair decisions and your votes. The rightmost four rooms are session rooms with pre-scheduled content.

The BoF rooms and the open BoF area is unmoderated and is community driven. There, speakers can freely schedule BoFs themselves, possibly modifying the location anytime. If you have a BoF which is not yet scheduled, go to your BoF page and use the schedule tab.
